

## Rainier Beach: A Beautiful Safe Place for Youth 2014 & 2015 CAD Data Report

March 2016

### Guide to this report

This report describes Computer Assisted Dispatch (CAD) data in the ABSPY intervention area during 2014 and 2015. There are three sources of CAD data:

- 911 calls by the public for emergency assistance
- In-person requests for assistance by the public
- Issues police officers notice while on duty

This report is divided into 5 sections: one for each hot spot (Rose Street, Rainier & Henderson, Light Rail, Lake Washington, and Our Safe Way). Each section contains the following data:

1. Graph of annual number of calls, 2012 – 2015
2. Graph of annual number of calls by broad type, 2012 - 2015
3. Narrative summary of data
4. Table of specific calls for 2014 & 2015
5. Graph of calls by month for 2014 & 2015
6. Graph of calls by day of week for 2014 & 2015
7. Graph of calls by time of day for 2014 & 2015
8. Table of how calls were received for 2014 & 2015
9. Table of how calls were cleared for 2014 & 2015

### Definitions:

<b>Incidents</b>	Situations in which the police attended and took a crime report. Multiple offenses may be involved in a single incident. We prioritize violent offenses in this analysis. See the example below for information about how this affects the numbers.
<b>Offenses</b>	Specific crimes that comprise an incident. A single incident may involve multiple offenses. See the example below.
<b>Person Incidents</b>	Crimes involving a person as a victim, e.g. robbery, assault, aggravated assault.
<b>Property Incidents</b>	Crimes involving loss of or damage to someone's property, e.g. theft, burglary, property damage, arson.

<b>Disorder Incidents</b>	Crimes that affect public order and quality of life, e.g. disturbances, liquor violations, drugs, threatening behavior, weapons, prostitution.
<b>Other Incidents</b>	Crimes that do not fit into person, property, or disorder categories, such as fraud and trespassing.

**Incident/offense example:** If an incident contains multiple offenses we prioritize the most serious violent offense when deciding which crime to use to classify the incident, followed by property offenses. For example, a youth is arrested on the street for robbery. During a search the police find drugs and a gun. The police report (incident) will contain three offenses: robbery, drugs, and weapons. We would classify the **incident** as robbery because it is a violent offense. However, in the **offenses** graph this incident would be counted three times: one robbery offense, one drug possession offense, and one weapons offense.

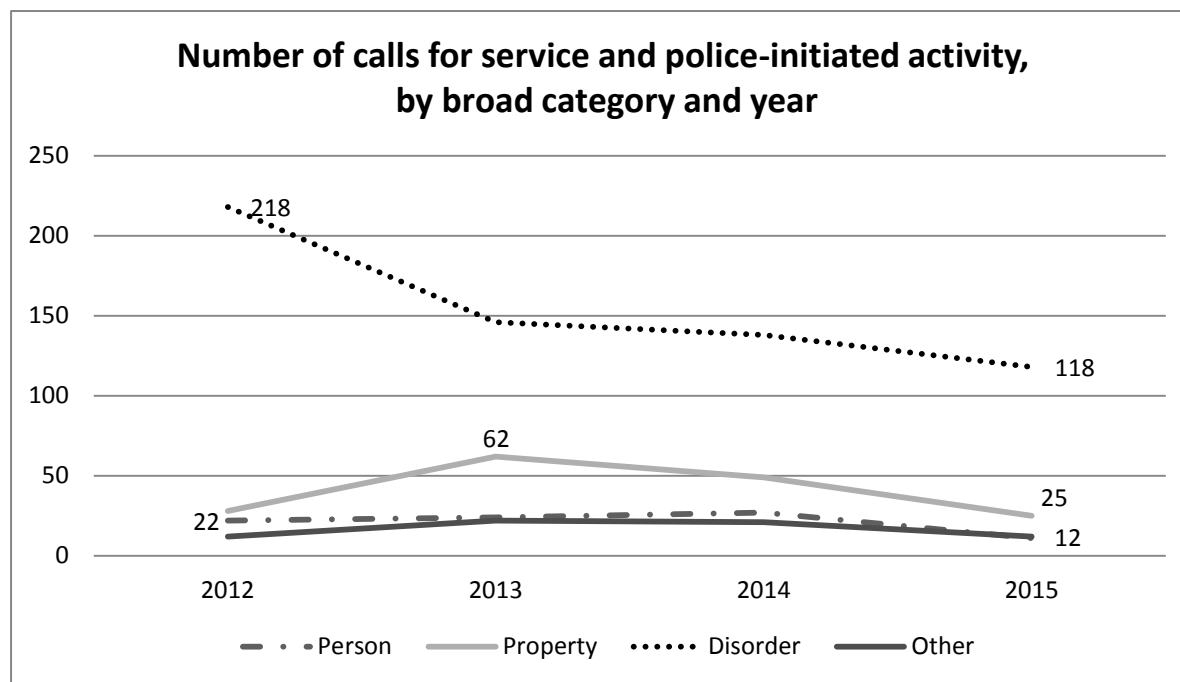

#### Caveats

- Seattle Police Department uses different rules to count and prioritize offenses. We do not have access to this information, so our method may differ and may not match official UCR counts for the city.
- These numbers cannot be used to determine whether an intervention is “working.” We will provide more detailed analysis later in the project.
- Crime trends can change rapidly from month to month, especially in small areas.

## Rose Street: Summary

Calls for service and police-initiated activity, 2012 - 2015

- The number of calls related to crimes involving **people** is at its lowest point since we began to measure calls; this is true of both assaults and robberies.
- The number of **property** crime calls is also at its lowest point since 2012; calls regarding burglary have decreased every year since 2012, although the number of calls reporting property damage has been higher the last two years compared with the two previous years.
- Calls reporting **disorder** incidents have been decreasing since 2012. The number of calls reporting suspicious circumstance are about a quarter of what they were in 2012, and disturbance calls have decreased somewhat. On the other hand, the number of calls for narcotics complaints has more than doubled in the last year.
- The number of calls for '**other**' topics increased in 2013 and 2014, and decreased last year.

## Rainier & Henderson: Summary

Calls for service and police-initiated activity, 2012 - 2015

- The number of calls related to crimes involving **people** increased from 2012 to 2014 and decreased in 2015. Both assault and robbery follow this pattern.
- The number of calls regarding **property** crimes has decreased somewhat between 2014 and 2015. Theft remains the largest proportion of these calls, although the number of these calls is lower than in previous years.
- There is not a consistent pattern of calls reporting **disorder**, although there were fewer of these calls last year compared with the year before. The number of calls reporting disturbances peaked in 2014, while those reporting suspicious circumstances were greatest in 2012. On the other hand, there were more liquor violations reported in 2015.
- The number of calls regarding **'other'** topics peaked in 2014; this increase was primarily due to warrant calls which decreased in 2015.

### Light Rail: Summary

Calls for service and police-initiated activity, 2012 - 2015

- Calls related to crimes involving **people** were very low in 2015, but there is not a consistent pattern from year to year. Both assaults and robbery calls decreased last year.
- The number of **property** crime calls was slightly lower in 2015 compared with previous years.
- There was half the number of calls regarding **disorder** in 2015 compared with the previous year; there were large decreases in calls for disturbance and suspicious circumstances.
- The number of calls regarding **'other'** topics continues to be stable and low.

## Lake Washington: Summary

Calls for service and police-initiated activity, 2012 - 2015

- Calls related to crimes involving **people** have decreased from last year, but it is not a consistent pattern from year to year.
- The number of **property** crime calls increased in 2014, but decreased again last year; auto thefts in particular followed this pattern.
- The number of calls regarding **disorder** in 2015 increased over the number in 2014, but remains far below that seen in 2012. The number of calls regarding suspicious circumstances has remained about half of those in 2012, but disturbances have remained stable. The number of trespass calls increased sharply last year.
- The number of calls regarding **'other'** topics increased in 2014, but decreased again last year.

### Our Safe Way: Summary

Calls for service and police-initiated activity, 2012 - 2015

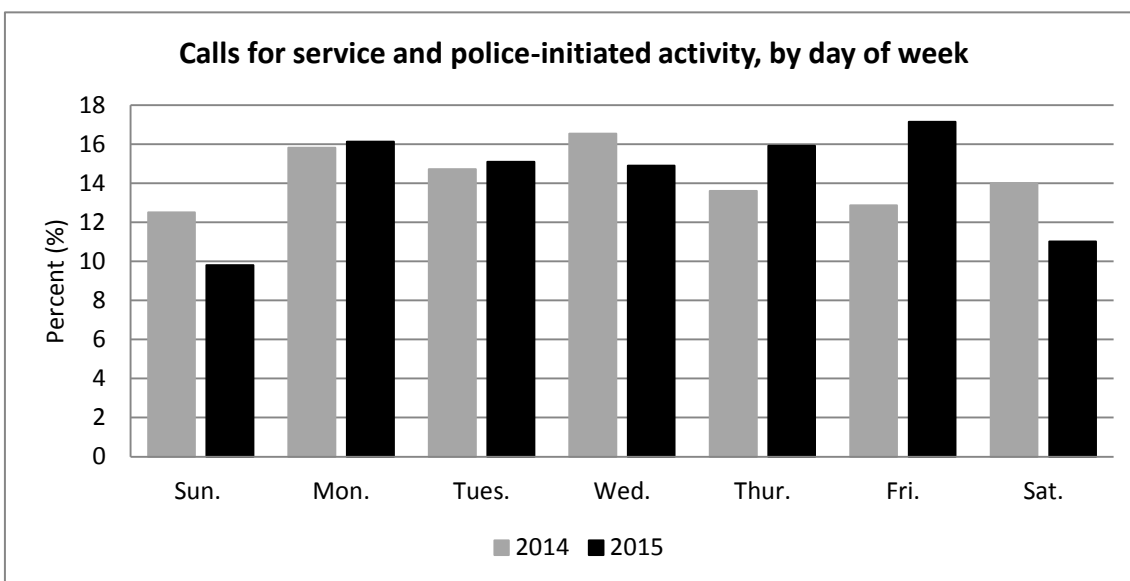

- Calls related to **people** have decreased from last year, particularly robbery, but the overall number is similar to the number that occurred in previous years.
- The number of **property** calls is stable from last year; those regarding theft are stable from the previous year, but these make a smallest percentage of all calls since 2012.
- Number of **disorder** calls nearly three times higher than any time in the last four years. The number of trespass calls is nearly 10 times higher than in 2013; suspicious circumstances and liquor violations are also considerably higher.
- The number of '**other**' calls were more than twice as high in 2015 than any of the previous three years; this increase is driven primarily by an increase warrant calls.
